INTRODUCTION

The National Conference on Controls and Instrumentation (NCCI-2007) will be held during Dec. 29-30, 2007 at National Institute of Technology (NIT), Kurukshetra, Haryana, India.

Established in 1963, the institute is one of the top ranking institute for Engineering and Technology education in the country. The Institute was conferred Deemed University status in 2002 and has recently been declared as Institute of National Importance via NIT Act 2007.

The Department of Electrical Engineering offers B.Tech., M.Tech. and Doctor of Philosophy programmes. The Department is actively engaged in research in major areas of Electrical engineering.

SCOPE OF CONFERENCE

NCCI-2007 intends to provide a forum for researchers and engineers working on the state-of-art investigations, development and applications. The Conference is aimed at live exchange of research interest and contributions of researchers from all over the country in the area of control and Instrumentation. The contributory papers in the following major thrust areas are invited, however, quality review and survey work is also welcome.

MAJOR AREAS OF INTEREST

Contributory papers are invited in the following emerging area

- ◆ Linear and Nonlinear System Theory
- ◆ Robust & Optimal Control with applications
- ◆ Digital Control and Microcontrollers
- ◆ Instrumentation System Design and Applications

- ◆ Robotics and Automation
- ◆ Virtual Instrumentation
- ◆ Digital Signal Processing for Instrumentation and Control Design

Please mention the major area while submitting your contributions so as to enable us complete the review process in time.
